

Green Mountain Gorillas 2015

1) Once upon a time, on a Treble Clef, there lived the voices.

2) Na, na, na, na, na, ma

Ho,ho, ho

Aiya ya ya ya ai

Ohm Ohm Ohm

na ga na ga na ga

hakunmatata

a ga gag a ga gag

2) “Na, Na, Na, NA” , the ruler of the voices, had a son, 3/4 Time, 6/8 time and 4/4 time.

3) 4/4 grew up and overthrew the voices because they were annoying and banished to Bass Clef.

4) 4/4 was just as mean as “Na, Na, Na, Na” so Ohm agreed to help the Notes, “Do, Ray, Mi, Fa, So, La Ti, Do” in the City of Staff, by giving them melody. Melody allowed the notes to arrange themselves in patterns so they were not simply noise. The notes organized themselves into melodies like, “row, row, row your boat” and the “ABC’s”.

5) 4/4 Time thought the notes might take over, like he did. He was angry that they got melody so he decided to get revenge on Notes. He sent them Silence or A Rest Note. He thought the notes would be confused by silence so they would stop using melody.

6) 4/4 Time sent Silence with a box of three evils and Harmony. He hoped that the evils would make the notes too upset to use melody.

7) 4/4 time told Silence to never open the box, but 4/4 time's brother, (3/4 or 6/8) blessed Silence with curiosity.

8) Silence could not stand the boring songs of the notes anymore, so she opened the box. She released Misfortune, Sorrow and Pollution into the world.

9) The city of Staff turned into chaos! They decided to send their strongest, most muscly guy, “La” but he came back with a skinned knee, crying and K cups in his hair.

10) So, the city decided to send their smartest and geekiest book worm. He came back with a broken nose, practically swimming in his own tears, with K cups stuck to his body.

11) Finally, they decided to send their best musician to fight them. He must get the keys from the evils in order to release harmony into the world.

**Do you mean keys or do you mean something else from music theory??
**when you think of harmony, what does that mean?
**how might that relate to the levels?
**what did the musician carry with himself?

"Misfortune is My Name"

(C A B A GGGG repeat)

I met a black cat,
My only kin.

I got struck by lightning,
burned my skin.

Misfortune's my name,
no luck is my game.

I tried out for a play,
the very next day.

I got real mad,
because my part was bad.
They say 'break a leg'
and I fall of the stage.

Misfortune's my name,
no luck is my game.

I never find four leaf clovers,
I always find three

I slipped on a banana,
I banged up my knee

Misfortune's my name,
no luck is my game.
Now feel my pain...

Misfortune is so pleased he gives the Gamer a Badge and the level is complete.

Bad things happen,
push it aside
Don't make a big deal,
you can abide.

I know where you have been
its definitely not a win

when I want some other to go
when I fell like its too much to row

If you feel sad,
look to the light

I will be waiting,
by your right.

Remember, your note alone.
Well, be strong.

When you feel like going up
and your life is corrupt.

To the melody of Take On Me by Ah Ha

Put more thought in
what goes in the bin

K cups the new mountain
stacked up high
almost touching the sky

take out the trash

don't pollute
don't pollute

take the trash away.
recycle everyday

Pollution world wide

Harmony is released from the box using magnets.
